

Company Documentation

Welcome to the internal documentation hub. Use the navigation on the left to browse by topic.

Sections

Section	Description
Onboarding	Everything new team members need to get started
Architecture	System design and technical decisions
API	API reference and usage guides
Runbooks	Operational procedures and incident response

Contributing

To add or update documentation, edit the Markdown files in the `docs/` directory of the [company-docs](#) repository and open a pull request.
